🌐 [Ahamed Masry](#)

👤 [iamahamedmasry](#)

Final-year Cybersecurity student at SLTC Research University with hands-on experience in network scanning, vulnerability assessment, and web penetration testing. Proficient in Wireshark, Nmap, and Burp Suite. Combines security knowledge with full-stack web development skills (React, WordPress) and strong design capabilities.

EDUCATION

BSc (Hons) in Cyber Security

NOV 2023 - 2027

SLTC Research University

- Studying cybersecurity, networking, and software development fundamentals.
- Developing practical IT skills in secure systems and infrastructure management.

ICT Technician (NVQ-4)

Mar 2023 - Sep 2023

Manmunai Pradeshiya Sabha Training Institute (MPSTI)

- Completed practical training in computer systems, networking, and IT support.
- Gained hands-on skills in troubleshooting, OS installation, and office applications

EXPERIENCE

Ministry of Health - Katthankudy

Oct 2023 - Feb 2024

IT Technician

- Maintained and updated health-related databases to ensure accurate and organized records.
- Data entry, reporting, and document preparation.
- Supported documentation tasks including printing, scanning, faxing, and general office workflow management.

CERTIFICATES

Responsive Web Designs

2026

Freecodecamp

- Built responsive and accessible web pages using HTML5, CSS3, and modern design principles.
- Completed real-world projects focusing on user-friendly and mobile-first design.

Network Support and Security

2025

Cisco

- Learned network troubleshooting, security fundamentals, and infrastructure support.
- Practical experience using Packet Tracer and identifying cyber threats and vulnerabilities.

PROJECTS

ilovemyqr - QR Code Generator & Scanner

2026

Tech: React, TypeScript, Vite, Netlify

- Built a modern QR code generator supporting URL, vCard, and WiFi formats
- Added real-time preview with customizable colors and styles
- Enabled export in PNG, JPEG, and WebP formats

InfinityPoint.lk - Client Website Project

2025

Tech: WordPress, Elementor, SEO Optimization

- Built a professional, responsive website to enhance brand visibility and trust
- Improved digital presence with SEO-friendly structure and layout

ACHIEVEMENTS

Microsoft Learn Student Ambassador

2026

- Selected as a global student ambassador by Microsoft
- Organized and participated in tech workshops, events, and community learning sessions
- Promoted AI, cloud computing, and developer technologies within the student community

Kamatha - AI Plant Disease Detection App

2025

Tech: React, Gemini API, Vite, Netlify

- Implemented AI-based plant disease detection using leaf image analysis (Machine Learning)
- Integrated an AI-powered chatbot for interactive user guidance and support

SKILLS

Networking

- TCP/IP, DNS, DHCP
- LAN / WAN Concepts
- Basic Network Troubleshooting

Tools & Security Monitoring

- Wireshark (Packet Analysis)
- Nmap (Network Scanning)
- Burp Suite (Web Application Security Testing)
- Autopsy (Digital Forensics)
- FTK (Forensic Toolkit)

Cloud & Systems

- Cloud computing (fundamentals)
- operating systems
- system installation, configuration, and troubleshooting

Cybersecurity Skills

- SOC Operations (Security Operations Center Concepts)
- Security Fundamentals & Best Practices

Programming & Scripting

- Python
- PHP
- C
- Java
- HTML, CSS
- SQL

LANGUAGES

- Tamil – Native proficiency
- English – Professional working proficiency
- Sinhala – Intermediate (Conversational level)
